🌐 [Github](#)

Passionate front-end web developer with more than 2 years of experience using React.js to build all aspects of UI/UX for client-facing landing pages on the e-commerce website. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.

Experience

Software Developer, Byju's - Osmo

Nov 2020 - Present

- Implemented many new features on the e-commerce platform,
 - Wishlist - increased the conversion rate by 9.74%
 - Product Recommendation system - improved the attach rate by 6%
 - Ratings and Reviews - increased transaction rate from 4.5% to 9.2%
- Created animated landing pages using the framer-motion library.
- Optimized existing features for maximum performance across browsers.
- Collaborated with other engineers, designers, and product managers to deliver new user-facing features on the web.
- Implemented elegant and pixel-perfect User Interfaces.
- Actively participated in design and code reviews to build robust interfaces.
- Built reusable, high-quality code, and libraries for future use which can be used across multiple projects.
- Won playosmo-idea-week with the topic 'Interactive PDPs'.

Software Engineer Trainee, Laxaar

Jan 2020 - July 2020

- Did a 7-month internship that shaped my knowledge of frontend development. Brought UX designs to life through HTML5, CSS3, Sass, React.js, npm, and GitLab.
- Worked on a website builder project and implemented all landing pages for 2 client websites.
- Took an active role in both designing and developing.
